AN EXCLUSIVE JOB OFFICE FOR FINE PRINTING

ANNOUNCEMENT

B REEDERS, FARMERS AND STOCKMEN: We present this catalog to you asking that you carefully examine the pedigrees of the cattle we offer in this sale. You will notice that a large number of them belong to the best Scotch families and are descended from some of the best and highest priced Scotch cows ever imported. They are not in high flesh but good breeding condition and should prove profitable investments for those who may buy them. While we believe every animal we shall offer is a breeder, no guarantee of future usefulness will be given.

Each owner will be present in the ring while his animals are being sold to answer any questions, should you ask any, and holds himself responsible for any statements he may make regarding the same.

While registered cattle of all breeds have sold well the past winter they undoubtedly would have sold for much higher prices had there been no disease in this country. Now that conditions are becoming normal again, and grass coming on to take the place of high priced feed, sales in the future surely will register higher values both in breeding stock and beef animals. As evidence that we are to have higher priced beef in the future and for some time to come, I quote from the Chicago Live Stock World of March 27th: "Last February we exported 25,059,881 lbs. of canned and fresh beef compared with 757,611 lbs. in February, 1914."

All stock will be at the risk of the bidder as soon as sold, but if desired we will feed and care for them until the following day. Those to be shipped will then be put on the cars free of expense to the purchaser.

Sale will begin at 1:30 p. m.

Terms of Sale, Cash. Responsible parties who desire time may be accommodated by arranging with the clerk before the sale begins.

F. P. HEALY, Manager.

The original Butterfly by Matadore proved long lived and produced many calves among which was Lord Byron and Royal Fourth, both of which were used in the herd."

IMP. GEM—Is one of Kentucky's most favorite families of Short-Horns. The veteran breeder Wm. Warfield of Lexington, Ky., after breeding them for twenty years said: "For beef and milk combined I have never bred so good a family." Gem was imported in 1853 by the Kentucky Importing Co., and sold at their sale the same year to Cunningham & Vanmeter for \$825. Medora was a great show cow and a breeder of show animals. A competent judge said one of the most interesting sights he ever saw at an agricultural exhibition was on the show grounds at Otley, when the famous Booth cow Medora by Ambo was led around the ring, followed by her six daughters, all of them, as well as the mother, decorated with prize ribbons.

BEDFORD, IOWA.

I have made the study of pedigrees a life work. All you need to send me is short form pedigrees. I have held a great many sales myself and know that catalogs should be gotten out in good time.
